## CRATING AND RIGGING

## Effective Solutions: Comprehensive Crating and Rigging Services with SDB Contracting Services.

### CUSTOM MATCHING

SDB's Crating and Rigging Division seeks to make your life easier by custom matching our crating expertise to your specifications and expectations. We provide reliable solutions and remove the need for additional contractors. Our riggers participate in qualified training sessions and have been involved in developing new methods that have been proven to be successful. Whether working with small, 100-pound-piece equipment or more sensitive equipment, SDB Crating and Rigging Division is here to help find a solution for you.

### CRATING SERVICES

Crating involves custom-building crates to securely transport items. These crates are tailored to fit snugly, minimizing movement and reducing the risk of damage during transit. Services include assessment, design, construction, and packing. High-quality materials are used to provide adequate protection against shocks, vibrations, and environmental factors.

### QUALITY AND EXPERIENCE

SDB facilitates the lifting, moving and precise positioning of items. SDB's team of trained professionals ensures the safe and skillful maneuvering of heavy loads, prioritizing safety throughout the process.

## SECTORS WE SERVE

- Advanced Technology
- Industrial
- Commercial
- Municipal
- Higher Education
- Healthcare / Life Sciences
- Aviation

## INNOVATION IN CRATING

Advancements in materials and design lead to more durable, lightweight, or modular crate options, enhancing efficiency and safety in construction logistics.

## SPECIALIZED CRATING SOLUTIONS

Certain projects may require specialized crating solutions tailored to unique materials or equipment. This could involve custom-designed crates or modifications to existing ones to ensure the safe transport and handling of specific items.

## RIGGING - SAFETY MEASURES

Rigging plays a critical role in construction projects by enabling the safe and efficient movement of heavy loads. Proper planning, equipment selection, and adherence to safety protocols are essential to ensure successful rigging operations on construction sites. SDB riggers have completed qualified rigging training sessions and have developed new and improved methods that have been successful time and time again.

## SAFETY

SDB's EMR of .57, demonstrates our dedication to safety. SDB Superintendents are required to follow SDB's safety policies, which often exceed OSHA standards. SDB's safety team, comprised of 18 certified safety professionals:

- Advises supervisory personnel on safe practices
- Supplies information required to comply with company safety program and OSHA regulations
- Assures records are maintained and submitted
- As a condition of employment, SDB requires employees to comply with applicable federal, state, county, city, client and company safety regulations.
